The April 8, 2024, eclipse is part of Saros Cycle 139 8 North.

Inventiveness and flashes of genius are the hallmarks of this Saros Series. The individual will have intuitive leaps, insights, good ideas, visions, or vivid dreams. This new-found inspiration will pull the person away from his or her social life or relationship, thereby causing strain in the private life. This is a time when the person needs to be free, if only for a few weeks.
